

# UIC Center for Global Health – Graduate Global Health Programs

Amber Hathcock, MD MPH

Associate Director of Graduate Global Health Education,  
Director of Diversity, Equity, and Inclusion

UIC Center for Global Health

Assistant Professor, Department of Emergency Medicine

*“Global Health is an area for study, research and practice that places a priority on improving health and achieving equity in health for all people worldwide. It emphasizes transnational health issues, determinants and solutions; involves many disciplines within and beyond the health services and promotes interdisciplinary collaboration.”*

# UIC Center for Global Health

- Mission: To improve the health of populations and individuals around the world, and to reduce health disparities, by collaboratively conducting trans-disciplinary research, training the next generations of global health leaders, and building the capacities of global and local partners
- 

# UIC CGH

- Networking
  - Internationally: existing partnerships with hospitals, organizations, clinics spanning numerous countries
  - Locally: with faculty, peers, and students
- Mentorship for GH research and experiential learning
- Resources for global health scholarship
- Education: Graduate program for post-grad trainees (residents, fellows, junior faculty)
